

ÉDOUARD LAVERY-PLANTE

iOS UX Designer and Developer

PROFILE

I'm a very young technology addict currently located in Montreal. I'm pretty versatile in all aspects of digital media — it's probably my greatest strength. The days when developers and designers were two different people are over. I'm the proof of that; I care deeply about good code and good design. In fact, if what I do doesn't make life simpler, nicer and safer, then I've failed.

Still hungry and naive, I'm ready to take on any technological challenge.

EXPERIENCE

iPhone Developer at Nurun May 2010 - Present (10 months)

- iPhone Development using technologies from OS 3 + including Core Data and Core Location.
